

CREDIT POOL

As an HP Tuners Authorized Reseller, you have access to a highly convenient feature that makes adding credits to your customers' RTD/MPVIx devices simple and fast.

WHAT IS THE CREDIT POOL?

The Credit Pool is an account of credits that you can resell and/or transfer to your customers. Think of a Credit Pool like a bank account. Instead of depositing money, you deposit Universal Credits which can be transferred to any RTD (all gens), MPVI2, MPVI2+, or MPVI3 you want at your convenience.

COMMON USE CASE:

Let's say you recently received your first order of 20 RTDs to sell. You decide to also sell (2) credits with each RTD. As the shop, you can purchase those (40) credits from HP Tuners for your Credit Pool.

NOT USING CREDIT POOL: X

Send your customers to our website to purchase credits and lose revenue. Or, before you ship the RTDs, go to our website to purchase credits individually for every device.

USING CREDIT POOL: ✓

Simply transfer credits from your Credit Pool to each device by entering the device serial number. That's it!

MASSIVE TIME SAVER

Purchase credits in bulk and transfer vs. repeating the purchase process on our website for every device you sell, saving you time!

EARN EXTRA PROFIT

If you have a reseller discount, earn extra profit by reselling Universal Credits via your Credit Pool vs. directing customers to purchase credits on our website. Sell Universal Credits to remote customers who already have an HP Tuners device and want your services vs. directing customers to purchase credits on our website.

HOW TO ADD CREDITS TO YOUR CREDIT POOL

- Go to www.hptuners.com > **MY ACCOUNT** and click **Credits Pool** in the left-hand menu bar.
- Click **Add Credit** and select the number of credits you want to purchase.
- Follow the checkout process. Once completed, your credits will show up in your Credit Pool dashboard.

HOW TO TRANSFER CREDITS VIA YOUR CREDIT POOL

- Go to www.hptuners.com > **MY ACCOUNT** and click **Credits Pool** in the left-hand menu bar.
- Under **RTD and MPV12/2+/3 Transfer**, enter the serial number of the device you want to send credits to. Once entered, the device owner's name will pop up.
- Add a note for the transfer (ex. Credits for Joe's Camaro).
- Select how many credits you want to send.
- Click **Transfer**. Then, ask your customer to resync their device for the credits to show up.
