

## TAKE HP TUNERS BEYOND THE PAVEMENT

Experience custom tuning and diagnostics support for the industry's biggest powersports players using our flagship OBDII interface and VCM Suite software package. Scan, log, read, edit, and write to your machine via the diagnostics port with our OBDII Adapter Cables. Monitor vehicle performance with state-of-the-art data logging and scanning capabilities. Access more and better-defined parameters than our competitors. Utilize special features like Farm Mode, Start in Gear, and more. License and tune as many supported vehicles as you want with a single interface.

## POLARIS

Fuel your passion with complete diagnostics and tuning solutions for the industry's most diverse lineups of side by sides, UTVs, sleds, and single-seater vehicles. Get started with our Polaris OBDII Adapter cable and tuning tools.

### POPULAR SUPPORTED MODELS:
